

Survey 2015

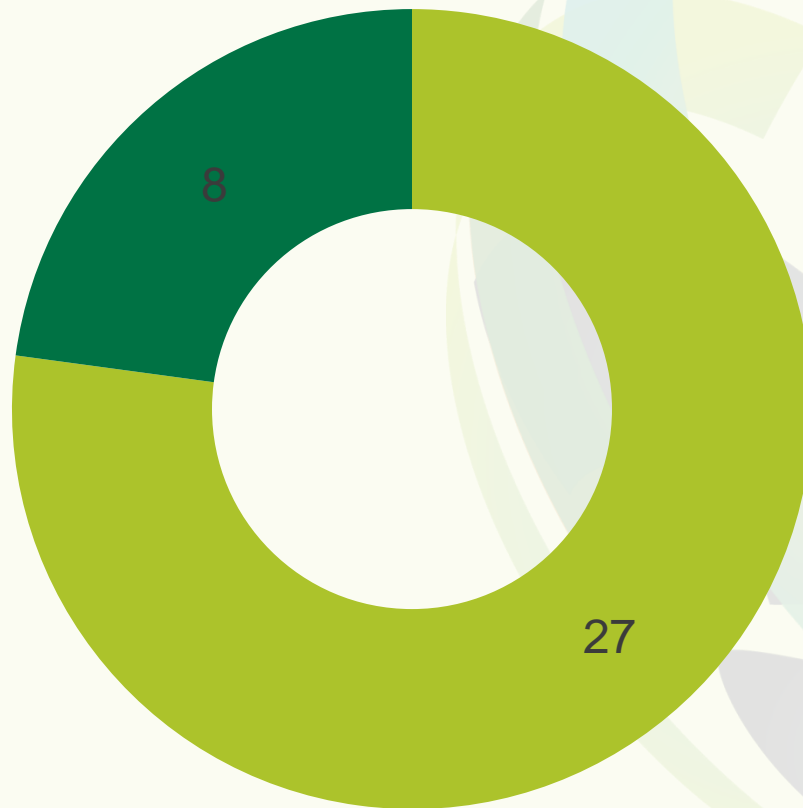

Sustainable funding models

2015-06-

IATI Steering Committee, Ottawa

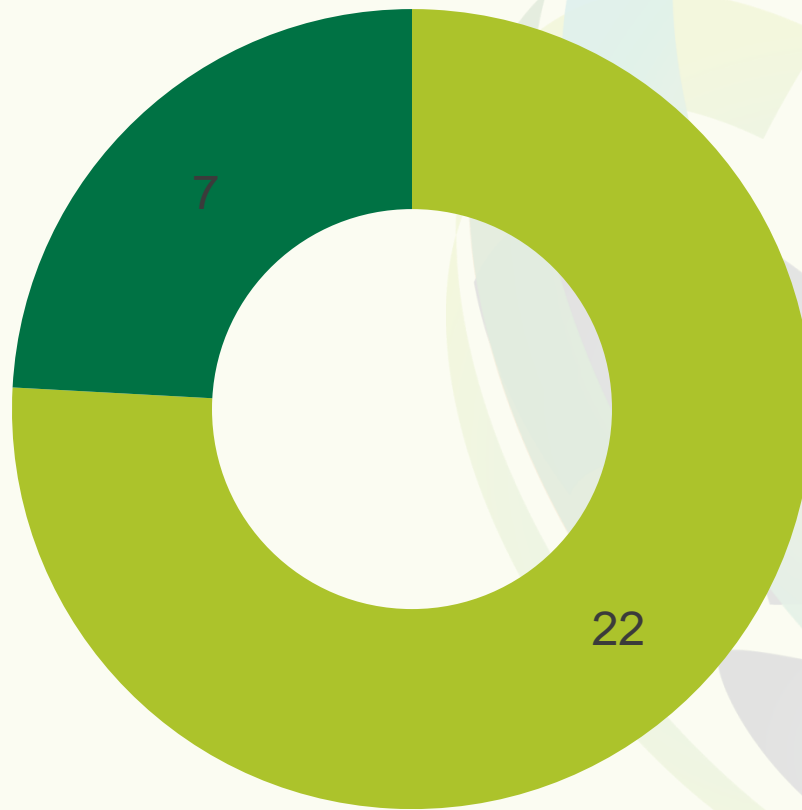

Name of Presenter

Are you familiar with the funding model for IATI (70% to be made up of membership fees, 30% from voluntary contributions)?

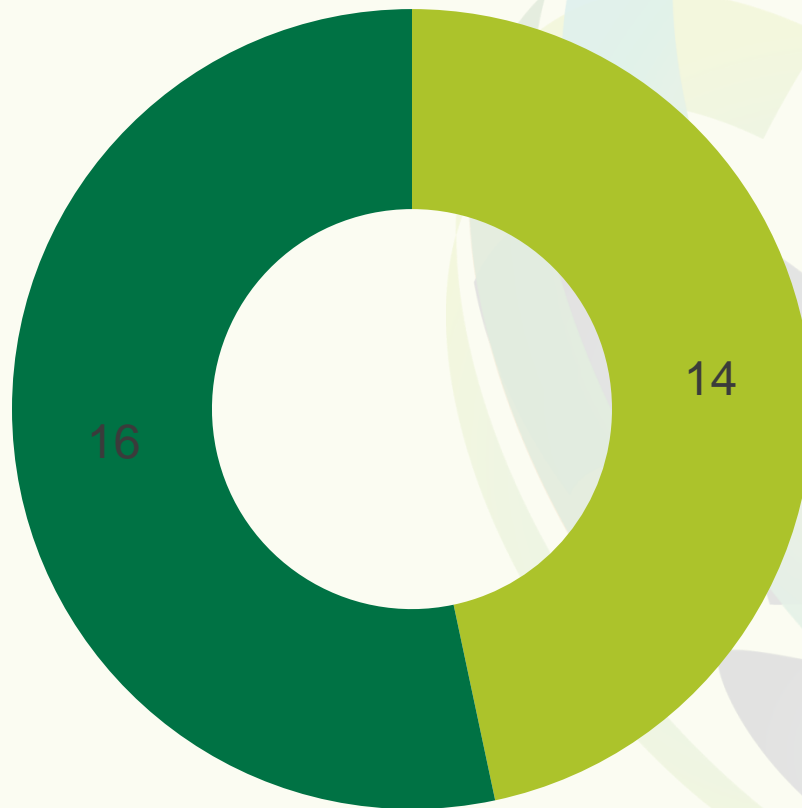

■ Yes ■ No

Do you believe the membership fee represents value for money for your organisation?

■ Yes ■ No

Do you believe the current funding model is appropriate/sustainable? Please explain further, or provide any recommendations you have for future funding arrangements.

■ Yes ■ No

A selection of comments

“IATI suffers from chronic funding shortages under this model. Unless membership fees are taken seriously (with consequences for those not paying), too much of the Secretariat time will continue to be wasted chasing fees and voluntary contributions. There should be full transparency on IATI funding, including those who pay and who don't.”

“It needs greater support from developed countries.”

A selection of comments (continued)

“The Steering Committee needs to decide on consequences for not paying your membership fee”

“I think more funding needs to come from mandatory contributions and that there should be incentives/penalties for making/not making timely payments.”
